How To Use The Order Form:

Use the Order Form to keep track of your orders. Each Column can be tracked as a separate order. Write in the desired quantity of each product in their corresponding square. Once complete, use the "Product Total" column to sum up the total number of each product across all your orders. Then, total up how much each of your orders owes in the "Customer \$ Total" row at the bottom of the order form. You can then total up all of the Customer \$ Totals into the Grand Total \$ square to find the final amount owed to your fundraising organization. If orders are being submitted online, use the "Product Total" column to submit your order online, creating one complete order.
